Description

Our Pocket Door is ideal for any pocket door application. Doors can be mounted on almost any pocket door framing system, but perfectly integrate with the 1500 Heavy Duty Pocket Door Frame Kit by Johnson Hardware (recommended).

Frame

Clean & simple, yet sleek frame design. Our aluminum extrusion frames are ideal for use in both professional or residential applications. Systems are fully finished on both sides with virtually no visible screws or fasteners. Standard frame size is three inches wide. Overall thickness is one and three-eighths inches.

Interlayer

Our exciting Layered Glass Interlayers are created by placing one of our incredible design layers between two pieces of 1/8" thick clear, tempered glass. The effect of these Interlayers can be very striking and provide a very detailed, high-end element to any interior space. Layered Glass designs are:

- mosaic. 5/8" x 5/8" squares that provide a prism-like light scattering effect.
- bubbly. 3/8" dia circles that provide excellent privacy and light reflection.
- pebbled. 1/4" to 1" random pebble shapes with a slight metallic tint.
- citylights. tiny 1/4" x 1/4" squares that refract and reflect light in multiple directions.
- cotton. simulates cotton fabrics, provides great privacy and light transmission.
- linen. thin, wavy white linen pattern provides great design and partial privacy.

Frame Finish

Aluminum frames are offered in high-quality, durable anodized or powder coat finishes: Anodized Aluminum, Dark Espresso, Snow White and Knight Black. Custom powder coat colors are available.

Door Pull Hardware

Heavy-duty Door Pull Hardware available in Satin Nickel or Polished Brass finish. Door Pulls installed and shipped with doors.

Framing System

Door can be mounted on almost any pocket door framing system (sold separately). For ease of installation and availability, we recommend the 1500 Heavy Duty Pocket Door Frame Kit by Johnson Hardware. These kits are the highest quality frames on the market and can be found at most fine hardware or contractor supply stores.

www.johnsonhardware.com

Dividers

Our doors may optionally be fitted with 1 to 5 horizontal dividers that are finished to match the door frame. Dividers are installed at factory.

Green Building

Perfect for consideration in LEED®-certified projects.

The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System is the nationally accepted benchmark for the design, construction, and operation of high performance green buildings.

'LEED' is a trademark owned by the USGBC (U.S. Green Building Council).

Made in the USA.
